COLLEGE

BULLETIN

SUMMER SESSION
1951

1st Term June 5 to July 7

2nd Term July 9 to Aug. 11

FEES AND EXPENSES

Matriculation	\$5.00
Library	3.00

Students attending both terms of the summer session pay the matriculation fee and library fee only once.

TUITION

Four semester hours or less, each hour	\$10.00
Five semesters hours or more	49.50

LABORATORY FEES

Biology, Chemistry, Geology, Physics, Typewriting each semester course	\$6.00
Psychology50

DORMITORY FEES

Room each term	\$12.50
Board each term	35.00

SUMMARY OF EXPENSES

	1 5-Week Term	2 5-Week Terms
Day Students		
Matriculation	\$ 5.00	\$ 5.00
Library	3.00	3.00
Tuition	49.50	99.00
Total for day students	\$ 57.50	\$107.00
Dormitory Students Additional		
Room	12.50	25.00
Board	35.00	70.00
Total for dormitory students	\$105.00	\$202.00

No scholarship or reduction in tuition or fees made for the summer session.

Board is provided in the College Cafeteria located in Galloway Hall.

FELLOWSHIP AND REFRESHMENTS

Admission – Credit – Classes

High school graduates should furnish transcripts.

Students from other colleges entering Millsaps for the first time should furnish a statement of eligibility from the dean or registrar.

OUTDOOR EXERCISE AND RECREATION

Summer Sessions at Millsaps . . .

1. Provides opportunity to continue work toward a degree or begin graduate work
2. Makes it possible to graduate in 3 years
3. Makes it possible to take teacher training to improve one's status without loss of time from teaching
4. Special opportunities:
 - a. To visit the museum, art gallery, and libraries
 - b. To visit the various State Departments
 - c. To attend excellent churches and live in a good cultural environment
 - d. To enjoy the recreation parks and swimming pools

Graduate Work

In cooperation with the University of Mississippi Graduate School, graduate courses will be offered at Millsaps College beginning with the Summer Session, 1951. These courses will be fully accredited by the University and will be taught by fully competent instructors approved by the University Graduate School. Twelve semester hours may be earned in the 1951 Summer Session in Education on the Advanced degree.

Expenses will be the same as those for other students.

This is an excellent opportunity for those in and near Jackson to get fully accredited University Graduate Work near home and get started toward the advanced degree.

COMFORTABLE ROOMS AND A FRIENDLY
ATMOSPHERE

Schedule Changes – Attendance

The college reserves the right to withdraw a course with insufficient registration or to change instructors if necessary.

Attendance is expected at each class session. Credit may be withheld for excessive absence.

**MILLSAPS COLLEGE
BULLETIN**

State Street Entrance — (left) — The east entrance to the college is framed by a steel arch. Whitworth and Sanders Halls, dormitories for girls, are shown in the background.

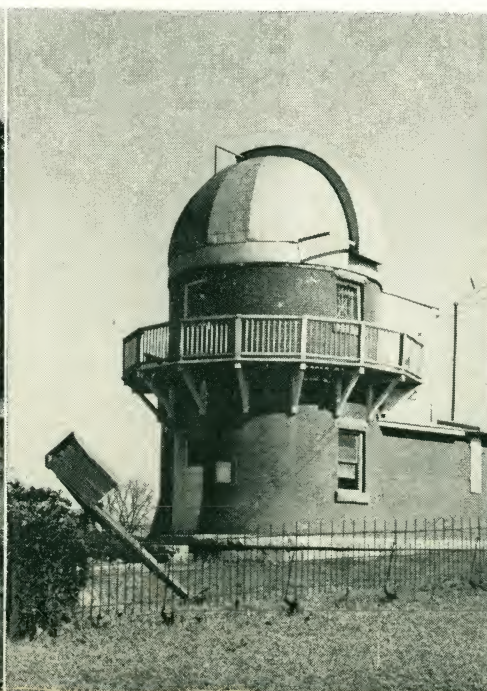

West Street Entrance — (right) — The semi-circular boulevard drive begins at North West Street and goes past Gallo-way and Burton Halls, dormitories for boys, on its way to the center of the campus.

Whitworth Hall — Distinctly modern, the colonial-styled girls dormitory has every convenience for campus life.

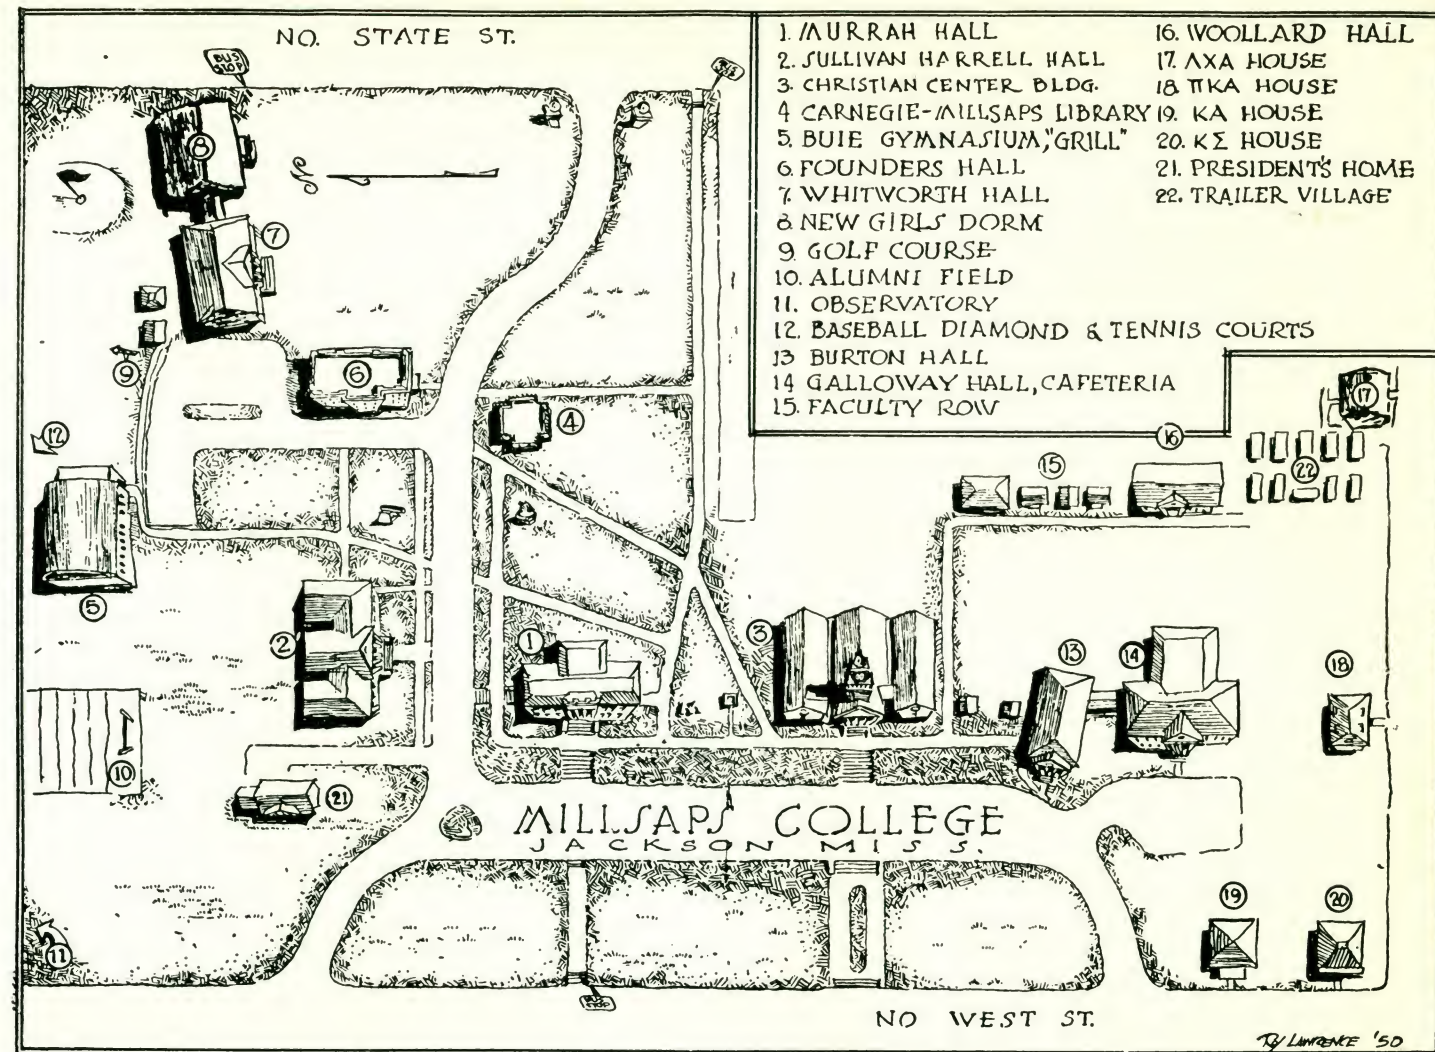

James Observatory — The observatory is used by astronomy classes. Many visitors each year look at the stars during observatory open nights.

Murrah Hall — The administration building houses classrooms and administrative offices. Sullivan-Harrell (Science) Hall is in the background.

Carnegie-Millsaps Library—Surrounded by beautiful magnolia trees, the library is ideally situated for quiet study.

Historical Sign—The College is marked on West Street with a State Historical Commission sign. The Christian Center Building may be seen in the distance.

President's Home—Many college-wide receptions are held in the home of the president.

MILLSAPS COLLEGE BULLETIN

Vol. 35

April, 1951

No. 8

Published monthly during the college year by Millsaps College, Jackson, Mississippi, at Room 13, Murrah Hall. Entered as a second class matter November 21, 1916 at the Post Office of Jackson, Miss., under the act of Congress of August 24, 1912.

Your Preview of Millsaps College

Jackson, Mississippi

Here is the story of Millsaps College.

This booklet is intended to show you, as nearly as possible through the eye of the camera and the black and white of printed word, a picture of life at Millsaps College.

To you who plan to continue your education, what you will see and read here will give you some idea of what you can expect at Millsaps. Your choice of college will affect your entire life, so it is important to make your selection with care.

Millsaps has always believed that individual attention is important to a sound course of education. Therefore enrollment is selectively limited to 800 students. In most cases, classes are limited to 30.

In a day when students at many schools are lost in a crowd of many, where the professor speaks to his class over a public address system, and where few of many can take part in student activities, the small liberal arts college stands out.

(Continued on Opposite Page)

Lounging — (left)— This student lounge in the Christian Center Building is one of four on the campus. Here students relax in the comfortable chairs, look over their lessons, and chat about the day's activities.

According to Plato— (bottom left)—In most cases, classes are limited to 30 students to insure greater individual attention. All classrooms are well equipped and designed.

Temperature: Normal —(bottom)—A registered nurse is on duty 24 hours a day in the college infirmary. The college physician's office is only a short distance from the campus.

Dorm Life—(right)—Providing the perfect atmosphere for enjoyable campus living, the dormitory is the ideal place for fellowship, study, and relaxation. One of the modern rooms in Sanders Hall, new girls dormitory, is shown here.

Here's My Advice—(bottom right)—Each student is assigned a counselor to advise him about studies and vocational interests.

Hitting the Books—(bottom)—For quiet, concentrated study, the well-lighted library reading rooms are always available to students. The Carnegie-Millsaps Library has been commended for its appropriate collection of books.

Friendly atmosphere, sound scholarship, worthwhile student activities, and an enjoyable social and cultural life are basic at Millsaps.

Nestled on 100 acres of velvet green rolling terrain about one mile north of the main business district of Jackson, Mississippi, the state capital, Millsaps' wooded campus is in the heart of one of the best residential areas of the city. It is co-educational.

The college was founded just over 58 years ago, and is one of the youngest colleges supported by the Methodist Church. Although Methodist-connected, there are no denominational entrance requirements. The college is non-sectarian, but devoutly Christian. A wholesome Christian atmosphere is maintained, and each student attends the church of his choice. During the 1950-51 session, students of 14 different denominations and faiths attended Millsaps. Faculty members represented five denominations.

Millsaps is recognized by all appropriate accrediting agencies. It has been a member of the Southern Association of Colleges since 1912, never on probation, its standing never questioned. The college is also on the fully approved list of the American Association of University Women.

No college is stronger than its faculty. Today, Millsaps boasts a

(Continued on Next Page)

well-trained faculty of more than 45 outstanding teachers, many of whom have gathered high academic honors. The majority have either completed or are now taking graduate study.

The college offers Bachelor of Arts and Bachelor of Science degrees. Majors are offered in liberal arts subjects, music and economics. Pre-professional work is given for medicine, dental science, law, engineering, nursing, journalism, ministry, technicians, and other fields.

MILLSAPS CAMPUS

On the northern part of the campus is located the finest nine-hole golf course in the state, together with athletic fields and gymnasium. The middle part of the campus is occupied with buildings of classrooms and administration, women's dormitories, and the library. Further south is the Christian Center Building, faculty row, men's dormitories, the cafeteria, and fraternity houses.

Buie Gymnasium is fully equipped for all types of indoor sports, and is headquarters for the physical education departments. It also houses the post office and the grill, the popular meeting place of all students.

Nearby are the three dormitories for women: Founders Hall, Whitworth Hall, and Sanders Hall. Founders Hall is the oldest building on the campus. Whitworth and Sanders are two of the newest buildings. Both are colonial in architecture. Directly behind Whitworth is Elsinore Hall, home of

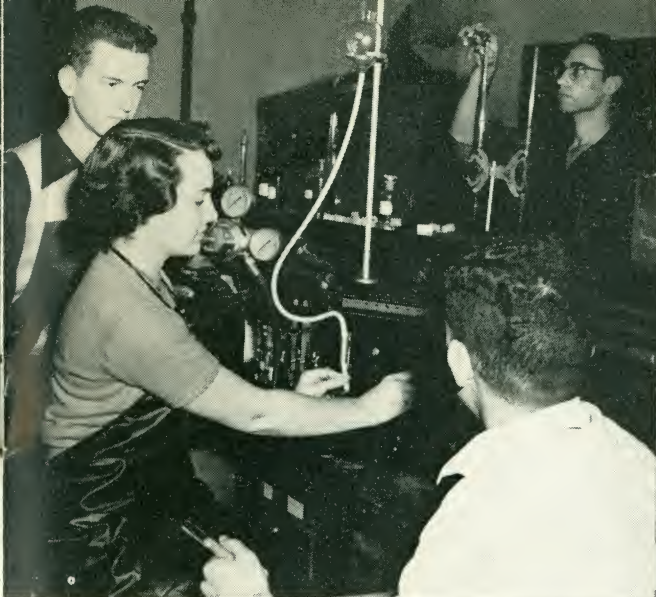

(Continued on Opposite Page)

Wolfe Lectures—(above)—Karle Wolfe, professor of art at Millsaps and Mississippi's most distinguished artist, explains a painting technic to members of his class. The art studio is just north of Burton Hall, men's dormitory.

Radioactive?—(left)—Geology students observe the reaction of a geiger counter to a radium dial wrist watch. Many field trips to oil fields and areas of geological phenomena are made annually by geology classes.

In the Chemistry Lab—The polarigraph enables students to analyze a chemical substance quickly. Each substance has a certain electrical impulse, which students learn to interpret. The Millsaps laboratories are well-equipped for all sorts of chemical research.

Talking Trophies—(bottom)—Millsaps' championship debating teams are famous throughout the south. One of the best known collegiate debate contests is the Millsaps Debate

Tournament in which some 25 colleges compete every year. Here the Millsaps teams pose with their winnings for the year.

The Play's the Thing—The Millsaps Players each year present two three-act plays and three one-act plays. Students get experience not only in acting, but in backstage work such as set-building, lighting, and make-up. Outstanding workers attain membership in Alpha Psi Omega, national honorary dramatic fraternity.

music instruction. It was formerly a plantation house.

The Carnegie-Millsaps Library, just south of Founders, has well-lighted reading rooms and has been commended for its appropriate selection of books.

Sullivan-Harrell Hall is the center of all science studies on the campus. Here are found the biology, chemistry, geology, and physics and astronomy departments. The many laboratories are filled each afternoon. The science museum, under the direction of Dr. J. M. Sullivan, is also in Sullivan-Harrell. North of Sullivan-Harrell on the edge of the golf course is the James Observatory whose six-inch equatorial telescope is among the best for the study of stars in this part of the country.

Murrah Hall is the administration building, with the presidential and other administrative offices. A number of classrooms and a small auditorium are in Murrah. The Christian Center Building is occupied by a large auditorium, spacious student lounges, the Fitzhugh Memorial Chapel, a religion library, student activity rooms, and classrooms.

The college infirmary is directly south of the Christian Center. In it a registered nurse is on duty 24 hours a day. The college physician is on call at all times. The art studio, where students are taught by Karl Wolfe, Mississippi's most distinguished artist, is next to the infirmary. Woollard Hall, just behind the art studio, is a dormitory for ministerial students.

Burton and Galloway Halls, dormitories for men, are on the sou-

(Continued on Next Page)

thern part of the campus at the North West Street entrance. They are built in colonial style architecture. Connected to Galloway Hall is the college cafeteria, which provides students with wholesome food at economical prices. On the southeastern part of the campus is Trailerville, where married veterans live.

The four fraternity houses — Kappa Alpha, Kappa Sigma, Pi Kappa Alpha, and Lambda Chi Alpha—are around the southern rim of the campus.

Millsaps has always emphasized scholarship. Students are admitted not on the basis of ability to pay or previous opportunities or charm of personality, but on ability to think, desire to learn, good moral character, and intellectual maturity.

The primary consideration in acting on all applications for admission is the ability to do college work in a measure satisfactory to the college and beneficial to the student.

Back in the mid-twenties when intelligence tests were first given to freshman students, the president made this forthright announcement to the student body: "We are trying to make our requirements such that no person with mediocre ability combined with mediocre industry, can ever wear the Millsaps degree."

Tuition is kept low enough to make higher education available to all, but an attempt is made to keep admission requirements high enough to exclude those who cannot profit from it.

(Continued on Opposite Page)

Meeting Deadline—(above)—The Purple and White, weekly student newspaper, is written, edited, and published by students. It is rated as "excellent" by the Associated Collegiate Press. Here staff members gather around the copy table to put final touches on one of the weekly editions. Many former staffers now have important newspaper jobs.

Speed Test—(right) — Classes in shorthand, typing, and commercial work prepare students for jobs in the business world.

Dressed to Sing—(above)—The Millsaps Singers give many concerts and go on a tour each year.

According to the Script—(left)—The Varsity Show, comedy highlight of the year, is an original student revue.

Strike up the Band—Doubling as a concert band and a marching military band, the Millsaps Band appeals to a wide field of interests.

ACTIVITIES AT MILLSAPS

Every Millsaps student is given an opportunity for diversion and expression in the various out-of-class activities.

All students are members of the Student Body, which promotes student elections, mass pep rallies, all-campus social affairs, and the annual Homecoming celebration.

Students interested in journalism may volunteer for the editorial or business staffs on "The Purple and White," weekly student newspaper, or the "Bobashela," student yearbook. For those interested in more serious writing, "Stylus," the literary magazine, offers a chance to break into print with creative efforts. The Scribblers Club is a creative writing organization for interested students. Kit Kat and Chi Delta, for men and women, respectively, are honorary groups for students with interest and ability in writing.

A number of plays given each year by the Millsaps Players offer opportunity for participation in acting, make-up, staging, set-building, advertising, and publicity. Many dramatic workers are invited to join Alpha Psi Omega, national honorary dramatic fraternity.

Noted for its well-trained music organizations, Millsaps is proud of the famous Millsaps Singers, and of the Millsaps Band.

The Singers spread the name and traditions of Millsaps throughout this section and into other states through their annual concert tours. Membership in the a capella choir, directed by Alvin Jon King, is considered a distinct honor.

(Continued on Next Page)

The band doubles as a marching band for parades and sports events, and as a symphonic band for concerts. Many members also play in the Jackson Symphony Orchestra.

Since the organization of the college, debating has held a high place at Millsaps. Students have won many trophies in tournament competition with leading colleges and universities both in debate and oratory. The annual Millsaps Debate Tournament is one of the big events in college debating. More than twenty colleges and universities usually attend. Debaters are honored with membership in Pi Kappa Delta, national debate and speech honor society.

OTHER CLUBS AND SOCIETIES

Other extra-curricular clubs and societies which Millsaps students may join are:

Omicron Delta Kappa, national leadership honor society for men (considered the highest honor on the campus); Sigma Lambda, local leadership honor society for women; Eta Sigma Phi, national honorary fraternity for students who are proficient in classical studies;

Alpha Epsilon Delta, national honorary pre-medical fraternity; Kappa Delta Epsilon, professional education sorority; Theta Nu Sigma, general science fraternity; International Relations Club, honor group of students in history, economics, and allied subjects.

(Continued on Opposite Page)

Stairstepped—During an intermission supper at one of the fraternity houses, students gather on a staircase for light conversation. There are ten social organizations on the Millsaps campus.

Punch, Please—(upper right)—The ever-present punch bowl is much in evidence at this fraternity reception. Social groups have numerous small social events during the year.

The Hangout—The college grill is the favorite gathering place of all students. It is combined with the book store and the post office in the basement of Buie Gymnasium.

At Founder's Day—(above)—The Singers perform during a Founder's Day program in the Christian Center auditorium. The auditorium seats 1000, is acoustically perfect, and its large stage is readily adaptable to many uses—from dramatics to debate.

Country Clubbing—Gathered in front of the fireplace at the Jackson Country Club are sorority members and their dates at a major social event. Each of the ten social organizations has two major parties a year.

RELIGIOUS ACTIVITIES

The Christian Council governs religious organizations and activities. Its members are drawn from representative organizations on the campus. It is in charge of the annual Religious Emphasis Week, when outstanding religious speakers appear on the campus.

The YMCA and YWCA hold weekly meetings and sponsor frequent social events. They provide a wholesome expression for the religious interests of both men and women students.

The Ministerial League and the Women's Christian Workers are composed of students preparing for full-time church work. Members take part in various religious activities both on the campus and in local churches.

There are denominational groups on the campus for Baptist, Presbyterian, Episcopal, and Methodist students.

Regular chapel services are held at Millsaps for worship and information.

SOCIAL LIFE

The socially minded can find interests in the ten social organizations on the campus, eight of which are national Greek letter groups. Two are independent organizations for those who do not join fraternities or sororities.

They are. Fraternities; Kappa Alpha, Kappa Sigma, Pi Kappa Alpha, and Lambda Chi Alpha. Sororities; Beta Sigma Omicron, Chi Omega, Kappa Delta, and Phi Mu. Independent Student Organizations: Norsemen for men, Vikings for women.

(Continued on Next Page)

Each social organization holds two major social events annually and a number of other smaller parties and entertainments. The YWCA and YMCA sponsor frequent campus-wide socials. The annual all-college Play Day is regarded as one of the most enjoyable events of the year, as are the Varsity Show and Stunt Night. Coffee hour is a regular Thursday afternoon all-campus get-together.

Nearby Jackson provides abundant social and cultural life. The college is a ten minute bus ride from theaters, fine restaurants, and the Jackson Municipal Auditorium, where many famous entertainers appear every year.

LOCATION IN JACKSON

Being in the Capital city is of distinct advantage to the student. Besides the many social advantages, the student has the benefit of being near offices of state, leading department stores, fine libraries, museums, and parks. Of practical importance to many students is the fact that Jackson offers unrivalled opportunities to those who seek part-time employment.

SERVICES TO STUDENTS

Counseling on personal and academic problems is given in a friendly, gracious manner by Millsaps' many counselors. This program can be carried out more effectively at Millsaps than in a large institution because personal acquaintance with every student is possible.

On the staff for this purpose are the director of the Guidance Center, the Dean of Women, and

(Continued on Opposite Page)

A Queen is Crowned—Homecoming Day is the big event of the fall semester. After a day of activity, ending with a football game, the Homecoming Queen is presented with her maids. An outstanding alumnus is crowned as Coming-home Queen. The photo above shows the coronation group

at a recent Homecoming. The Cominghome Queen (left) is escorted by the president of the Alumni Association and the Homecoming Queen is escorted by the president of the student body.

Stepping High—(above)—The Millsaps Band, in purple and white uniforms, performs at football games and in parades. Shown are two of the majorettes who help lead the band.

Let's Go, Team!—An exciting moment during a football game finds spectators with eyes glued on the field. A number of football games are played in Jackson each season.

the Dean of the College. Each student is also assigned to an adviser, who is a faculty member, for counsel on scholastic achievement. Dating, student habits, religion, careers, etiquette, and other problems are discussed in individual and group conferences. Religious Emphasis Week speakers and other authorities who visit the campus talk over the students' personal problems with them individually.

The college maintains a free placement bureau to aid students in obtaining congenial, well-paying positions in diversified fields.

ATHLETICS AT MILLSAPS

"Sports for all" is the basis of the Millsaps athletic program. Varsity athletes get no financial aid, playing simply for the love of the game. Any student desiring to go out for a varsity sport is welcome. For those who are not interested in intercollegiate athletics, a far-reaching intramural program gives each student a chance to participate in sports on the campus.

Though varsity athletes are unsubsidized, Millsaps' intercollegiate teams have been very successful. The 1950 football team lost only one game.

Millsaps also has varsity teams in basketball, baseball, golf, and tennis. The college is a member of the Dixie athletic conference.

Intramural activities are offered in softball, basketball, touch football, golf, track, tennis, and volleyball.

The athletic department offers its facilities to students for indi-

(Continued on Next Page)

vidual or group use at any time. These facilities include five tennis courts, the nine hole golf course, soft ball fields, football field, running track, and gymnasium.

Full courses in physical education for both men and women are offered each semester.

ACADEMIC COURSES

Courses of instruction at Millsaps lead to career preparation and well-rounded cultural development. A partial list of courses offered at Millsaps includes the following: (See the Millsaps College Catalogue for a complete list of courses.)

Art	Literature
Astronomy	Mathematics
Biology	Music
Botany	Philosophy
Business	Physical Education
Chemistry	Physics
Drama	Political Science
Economics	Psychology
Education	Public Speaking
English	Religion
French	Sociology
Geology	Spanish
German	Speech
Greek	Stenography
History	Typing
Journalism	Zoology
Latin	

If you wish to apply for admission at Millsaps College, write to the office of the registrar for an application blank. To qualify for admission, you must be a graduate of an approved high school, with a good academic standing. For a college catalogue write to:

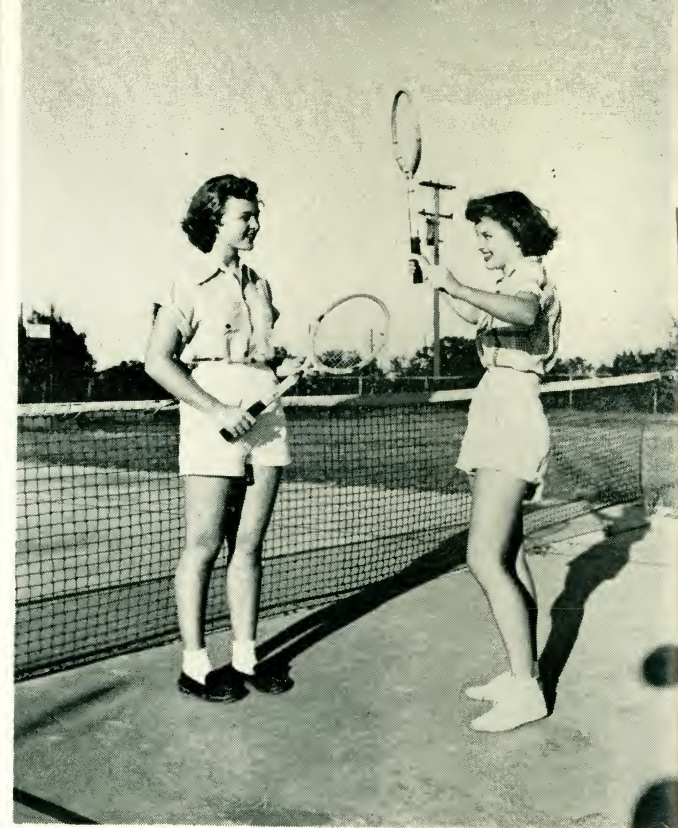

DEAN WILLIAM E. RIECKEN
Millsaps College
Jackson, Mississippi

In the Air—(above)—A Millsaps halfback demonstrates the speed which has come to characterize the scrappy football teams. The Millsaps Majors schedule both home and out-of-town games during the gridiron season.

What a Racquet—(upper right)—A Millsaps co-ed demonstrates the proper tennis stroke technique to a companion. There are three concrete tennis courts for student use.

Buie Gymnasium—Headquarters of all Millsaps sports activities for men and women is the gymnasium, which also houses the post office and grill.

It's a Single!—A hit is made in one of the girls' intramural softball games.

Set for a Ride—At nearby riding stables, Millsaps girls prepare to go horseback riding.

Basket Bound—A Major basketball forward springs for the basket in a game at Jackson City Auditorium.

Class is Out—Students walk down the steps of Sullivan-Harrell Hall at the end of a class period. All science classes are taught in this building.

Dogwood Time—One of Jackson's most beautiful dogwood trees is on the lawn in front of Whitworth Hall, dormitory for girls.

CHRISTIAN CENTER . . . Focal Point of Student Activity

Not yet a year old, The Christian Center Building has come to occupy a position of paramount importance on the campus of Millsaps College. Its uses are many. First and foremost, it is the center of religious life for the college. In its halls all religious courses are taught and the religion faculty maintains its headquarters. The beautifully decorated Fitzhugh Memorial Chapel provides an ideal place for any type of worship program. Also available are meeting rooms for religious groups and a religion library. Weekly chapel programs are conducted in the 1000-capacity auditorium.

In addition, the Christian Center has two large students' lounges, meeting rooms for all student organizations, and offices for the two student publications.

Since the first day of its use, The Christian Center Building has shown its value in a conclusive manner. Its contribution to Millsaps' great work is immeasurable.

A DISTINGUISHED HISTORY Founders Set Challenging Course

In the fall of 1892, a brand-new college opened its doors for the first time. It was located on a wooded hill about a quarter of a mile north of the city limits of Jackson, the small capital city of Mississippi. From its rather modest beginning with just four professors and a handful of students, that college has advanced firmly to the strong position occupied by the Millsaps College of today.

The college had been founded on a pledge of Major Reuben Webster Millsaps, Jackson banker and businessman, to make a grant for the founding of a Methodist college provided an equal grant could be raised among the Mississippi Congregations.

Under the leadership of Bishop Charles B. Galloway, the Methodists met the challenge of Major Millsaps. The charter for the college was granted February 21, 1890, and the college opened its doors in 1892. First president was William Belton Murrah. Along with Bishop Galloway and Major Millsaps, Murrah is commonly thought of as one of the founders of the college. In establishing the college, the first president secured the best trained men available, formulated a course of study in what were the fundamentals of a liberal education, and instituted a regime of intellectual activity that was challenging to faculty and students alike.

Coeducation was instituted in the seventh session. For the first 25 years, enrollment fluctuated between 100 and 200 students. By 1928-29 the college had 400 students, and during the Navy V-12 days of World War II, 600. Following the war, Millsaps reached and held an average attendance of 800 students, which has dropped in the last six months because of young men entering the armed services.

Millsaps College TODAY...

and its need for

YOU

★
Sunday, Oct. 21, 1951, is "Millsaps College Day" in Methodist Churches of Mississippi. The two Conferences will raise \$55,000 for the college on that day. Millsaps' stature in the educational progress of our region needs your help now —its strong program merits strong support.

MILLSAPS COLLEGE BULLETIN

Volume XXXVI

OCTOBER, 1951

Number 2

Published monthly by Millsaps College, Jackson, Mississippi. Entered as Second Class Matter, November 21, 1917, at the Post Office at Jackson, Mississippi, under the Act of August 24, 1912.

WORTH SACRIFICE
by Dr. Marion L. Smith
President, Millsaps College

If Millsaps College is to maintain its present high national rating, it must have more income to meet increasing costs.

Perhaps we can never charge our students more than \$650 a year for room, board, and fees. This is due to the fact that Millsaps has the greatest competition of any college in the United States. Mississippi has ten or twelve public junior colleges where room, board, and fees cost no more than \$250 or \$300 a year.

What then must be done if Millsaps is to continue to enjoy its national reputation, and if it is to get the best teachers, and provide the facilities which a good college should have? In order to secure the best teachers a college will have to set up a salary scale comparable to that maintained by other professions.

At present prices it costs more to maintain a library and provide facilities for well-equipped science departments than it did to maintain an entire college forty or fifty years ago.

The question is: How can Millsaps pay the instructional salaries, maintain buildings and grounds, provide the necessary facilities for the science departments, and finance the costs of library books and periodicals when it can never, and does not want to charge its students more than \$650 a year?

The only answer to this question is a \$5,000,000 endowment. It is a necessity if the young people of Mississippi are to have the best.

If Millsaps College had an endowment of \$5,000,000, the income from the amount would be \$200,000 yearly. We would then be able to carry out the purpose of Major Millsaps, who wanted to build a college where as good an education could be had as in any state in the Union and where the cost would be within the reach of all those who could profit from it.

MILLSAPS COLLEGE BASES HIGHER EDUCATION ON CHRISTIANITY

Millsaps College always has emphasized the importance of religious education.

Now that the Christian Center Building (above) has been completed and put into use as the focal point for all religious activities on the campus, Millsaps is able to do an even greater job of Christian education. Regular chapel services are held for worship and information in the Christian Center auditorium. The beautiful Fitzhugh Memorial Chapel is used frequently for worship services, religious meetings and weddings.

The various religious activities and organizations of the college are all represented on the Millsaps Christian Council.

The College YMCA and YWCA seek to strengthen the spiritual life and influence of the college and its students. They provide a wholesome expression for the religious interests of both men and women students.

The Ministerial League is composed of those students who are preparing for the Christian ministry. Its members take part in various religious activities both on the campus and in local churches. During the 1950-51 session, there were 70 ministerial students enrolled at Millsaps. As has been the policy of the college from its beginning, future ministers are not required to pay tuition.

Fine education based on sound religious principles form the basis of Millsaps' greatness.

MILLSAPS COLLEGE

- IS: Co-educational, Methodist connected, fully accredited, recommended by leading educators.
- HAS: Forty-nine teachers, twenty-five buildings, beautiful campus, all sports, unexcelled record for placing graduates in good positions.
- OFFERS: Bachelor of arts and bachelor of science degrees in many specialized fields and excellent pre-professional training in law, religion, medicine and engineering—all built on a sound, cultural foundation.

CHRISTIAN CENTER AUDITORIUM

Millsaps College Gears Itself To Southern Progress

As the 1951-52 session begins, independent colleges again are faced with an emergency. The reasons are two-fold. Large numbers of young men are leaving for service with the armed forces in the present international crisis. Also, the low birth-rate of the depression years of the 1930's has resulted in a minimum of potential students.

As a privately owned liberal arts college with a small endowment, Millsaps college must depend on student fees for 75 percent of the funds in its yearly budget. Obviously, when enrollment drops from 771 to 670, as it did at Millsaps in February, 1951, and when it drops still lower, as is predicted for this fall, the corresponding decrease in funds available for operating the college is considerable.

Furthermore, extensive emergency repairs to four Millsaps College buildings this summer has created an indebtedness which further emphasizes the educational emergency as it faces Millsaps.

The picture is not permanently dark. Good years are ahead. The tremendous birth rate of World War II will provide a record number of students in a few more years.

However, the present problem is immediate. To keep Millsaps strong through this period of emergency until things become re-adjusted, the loss of funds due to enrollment drop must be replaced. Also, Millsaps must keep solvent now so as to be ready for the big years to come.

To this end, Methodists of Mississippi have proclaimed Sunday, October 21, 1951, as Millsaps College Day in their churches throughout the state, and have pledged themselves to raise \$55,000 so that Millsaps may remain strong.

Three Leading Deans of Religion Say . . .

Millsaps College is certainly one of the most meritorious educational institutions in our country. For twenty years at the Candler School of Theology I have watched the Millsaps graduates come and go. For the last several years there have been present from 30 to 40 of these men in preparation for the Methodist ministry. Practically all of these men have returned to their native state to do their life work. Millsaps College merits the support of the Methodists of Mississippi on the basis of the ministers it supplies to the two Mississippi conferences. Besides Millsaps stands for the best in educational ideals and is making a very worthwhile contribution to the total educational life of the region.

H. B. Trimble, Dean
School of Theology
Emory University

It was my pleasure to visit Millsaps College twice during recent months, and I want to say how favorably impressed I was with your plant, faculty, and student body. I have heard from several authoritative sources that Millsaps is regarded as being the best college in the state of Mississippi . . . many fine young ministers have come to Duke Divinity School from Millsaps College . . . They have been uniformly well-trained, well-behaved, and consecrated to the cause of the Methodist ministry . . . I hope that the Methodists of Mississippi, realizing what an invaluable asset they have in Millsaps College, will even exceed the goal that has been set for your special day on Sunday, October 21.

James Cannon, Dean
The Divinity School
Duke University

I have just learned that you are beginning a campaign to raise some \$55,000 for Millsaps College on October 21. We have had a number of your students in Perkins School of Theology. They have been men of good character and have made acceptable records in the seminary. We point to some of them with pride as ministers who will become leaders in Methodism. I sincerely hope that the citizens of Mississippi and adjoining states will regard your campaign as an opportunity to express their interest in a fine Christian institution.

Eugene B. Hawk, Dean
Perkins School of Theology
Southern Methodist University

REASONABLE COST POLICY

In conformity with its charter, Millsaps has always maintained a policy of keeping costs of education as low as is consistent with effective work and with income from church contributions and endowment.

Students living in college dormitories and eating at the college cafeteria can attend Millsaps for one year for \$630. (exclusive of laboratory fees and books.)

Students living at home in Jackson can attend Millsaps for one year for \$300. (exclusive of laboratory fees and books.)

STUDENT ACTIVITIES

At Millsaps students are given a wide range of activities outside the classroom.

CLUBS. There are many organizations which foster the further extension of students' interests in pre-professional and other fields. Among these are the Pre-Medical Club, the Pre-Law Club, the Economics Club, the Education Club, the Science Club, the Classical Club, the International Relations Club, and Eta Sigma, Scholastic Honor Society.

WRITING. Millsaps students interested in writing receive valuable training by working on the staff of the "Purple and White", the college weekly newspaper, and by enrolling in the journalism course which is designed to instruct students in all types of newspaper writing.

DRAMATICS. The "Millsaps Players" is one of the most active groups on the campus. Under the leadership of members of the faculty, they present each session a number of interesting plays and programs.

DEBATING. Since the organization of the college, debating has held a high place at Millsaps. The college has established a remarkable record in Tournament competition with leading southern colleges both in debating and oratory. Many students seek membership in Pi Kappa Delta, National Honor Debate Fraternity.

MILLSAPS SINGERS. The name and traditions of Millsaps have been spread throughout this section and into other states through concert tours of the Millsaps Singers. Membership in this organization is considered one of the greatest honors and privileges which can come to a student.

MILLSAPS SYMPHONY BAND. Members of this fine organization present concerts on the campus and on tour, participate in local parades and play for colorful athletic contests.

OTHER ACTIVITIES. Offered to students include the Beethoven Club, the Bobashela (Campus Yearbook), the Jackson Symphony Orchestra and the Jackson Little Theatre.

President's Home

Millsaps Is Ranked at the Top ★ ★ ★ ★

As the sixtieth session begins Millsaps College continues to rank high among liberal arts colleges of the South.

Because of a deep-rooted tradition of scholarship at Millsaps, graduates are equipped with specialized and technical training built upon a sound, cultural foundation. In addition to granting bachelor of science and bachelor of arts degrees in many specialized fields, Millsaps offers the highest calibre pre-professional training in law, religion, medicine and engineering.

Millsaps is noted for its friendly and congenial campus life. Here students not only get to know each other well, but they also become more than ordinarily close to their professors.

The college considers itself fortunate in the quality and versatility of its distinguished faculty, for great teachers inspire and enrich the lives of their students. From the beginning the Millsaps faculty has enjoyed considerable prestige.

Today, Millsaps boasts a well-trained faculty of more than 45 outstanding teachers, many of whom have gathered high academic honors. Twenty of them have earned doctors degrees.

Students quickly make new friends among students and faculty. Friends who eagerly share their joys and responsibilities in their studies at Millsaps—where achievement and efforts are recognized.

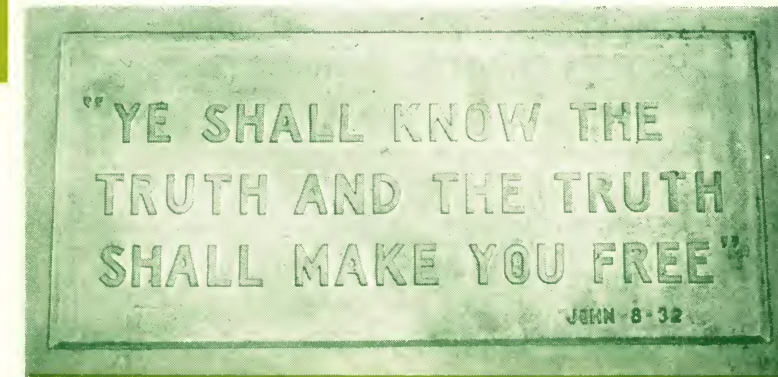

Millsaps College has been a member of the Southern Association of Colleges since 1912, never on probation, its standing never questioned. The college is also on the fully approved list of the association of American University Women and all appropriate standardizing and accrediting agencies.

MILLSAPS COLLEGE BULLETIN

Alumni News

Vol. 35—No. 9

Jackson, Mississippi

May, 1951

AERIAL VIEW OF CAMPUS

A complete view of results of Millsaps' building program is seen in this recent aerial view of the campus. New buildings are the Christian Center (center), the president's home (lower left), and Sanders Hall (upper left). The new campus roadway begins at North West Street (bottom) and forms a semi-circle. Between Sullivan-Harrell Hall and Murrah Hall (left center) a branch runs off toward North State Street (top).

A Word For Alumni

This newspaper is for you. Its purpose is to keep you acquainted with the affairs of Millsaps College and your fellow alumni, and to provide a stronger tie with your Alma Mater. It is the first of what we hope will be many of its kind sent to you regularly.

As you may have noticed by your own address, our alumni lists are somewhat out-of-date. For many former students, we have no later address than when they were students here. Elsewhere in this edition you will find an information blank. Please fill it out and send it in as soon as you get this paper.

MILLER HITS HOMER

Johnny Miller, Major athlete par excellence, thunders into the plate after knocking a homer against the Mississippi College Choctaws in one of the four baseball victories over the Clinton tribe this season. Counting wins in the last three basketball games, this brings the string of continuous victories over the Chocs in major sports to seven. The football game next fall should make it eight. (Photo by Ralph Hutto).

Graduation Plans Listed By President For June 3, 4

A complete program for alumni reunion and commencement exercises has been announced by Dr. Marion L. Smith, president of Millsaps College.

Activities begin Sunday, June 3, at 11 a. m. with the commencement sermon in Galloway Memorial Methodist Church in Jackson. Dr. W. B. Selah, distinguished pastor of the church, will preach. At 6:30 p. m. Sunday, the Millsaps Singers will give a concert of sacred choral music on the campus.

SPEAKER

Wayne Johnston, president of Illinois Central Railroad, will address Millsaps College seniors at graduation exercises June 4.

Alumni Meet 3 P. M.

The alumni will meet beginning at 3 p. m. at the M Bench south of Murrah Hall. A tent has been secured for headquarters in case of rain. At 4 p. m. alumni move to the Christian Center auditorium for the annual meeting and election of officers. No speeches are scheduled. Following the alumni meeting, the alumni supper will be at the M Bench. There will be no charge to alumni.

Graduation exercises will be at 6:30 p. m. Monday in the auditorium of the Christian Center. At that time 176 candidates for degrees will receive diplomas. Wayne Johnston, president of Illinois Central Railroad, will deliver the graduation address.

Four honorary doctoral degrees will be conferred on distinguished citizens of Mississippi during graduation. Medals and prizes also will be awarded.

Worth Sacrifice

By

DR. MARION L. SMITH

President, Millsaps College

If Millsaps College is to maintain its present high national rating it must have more income to meet increasing costs.

Perhaps we can never charge our students more than \$650 a year for room, board, and fees. This is due to the fact that Millsaps has the greatest competition of any college in the United States. Mississippi has ten or twelve public junior colleges where room, board, and fees cost no more than \$250 or \$300 a year. The Jackson city school system itself probably will and should in the next year or two add a junior college to its program. In addition, the charter of the college requires that "every reasonable effort be made to bring a collegiate education within reach and ability of the poorer classes of the state."

What then must be done if Millsaps is to continue to enjoy its national reputation, and if it is to get the best teachers, and provide the facilities which a good college should have? In order to secure the best teachers a college will have to set up a salary scale comparable to that maintained by other professions.

At present prices it costs more to maintain a library and provide facilities for well-equipped science departments than it did to maintain an entire college forty or fifty years ago. After exercising the greatest care in financing the maintenance of buildings and the upkeep of the campus, the expense is enormous. The lowest salary a college can afford to pay assistant professors should range from \$3600 to \$4200. Associate professors should receive from \$4200 to \$5000. Full professors should get from \$5000 to \$6000. And they still do not make the earnings comparable to other professions requiring equivalent training. Let me repeat that those figures represent the lowest salaries a college can afford to pay its instructors if it is to have the best.

The question is: How can Millsaps pay the instructional salaries, maintain buildings and grounds, provide the necessary facilities for the science departments, and finance the costs of library books and periodicals when it can never, and does not want to, charge its students more than \$650 a year?

The only answer to this question is a \$5,000,000 endowment. We've been saying this to our alumni and friends for many years. We have been saying it, but it is not just something to talk about. It is something we have set for our goal, and the friends of Millsaps College must help us realize it. I want to lay this matter on your hearts. It is a necessity if the young people of Mississippi are to have the best.

In the six New England States there are ten small colleges similar to Millsaps, each of which has an endowment of at least \$5,000,000. This is not counting the state universities of those states and the big schools like Harvard, Yale, Boston, and Brown universities. I am thinking of Holyoke, Smith, Williams, Wesleyan, Wellesley, Bowdoin, Amherst, Radcliffe, Trinity, and Boston colleges.

Here is another interesting fact: If the area of the State of Mississippi were one-third larger, Mississippi would have an area equal to that of all the six New England States put together. Yet if the endowments of all the senior colleges

ALUMNOTES

Henry Blount, '49, has been named editor of a trade magazine for the Georgia Association of petroleum Retailers. The magazine has a state-wide circulation and published monthly. Blount also is a student at Emory University School of Theology. He plans to enter the Mississippi Methodist Conference in 1953.

W. A. "Billy" Bilbo, '29, has been named the "Citizen of the Year" in Pike County.

Van Richardson, '41, has been promoted to district manager of the Mississippi Power and Light Co. of the Greenwood area.

Dr. Gilcin F. Meaders, '36, is with the National Cancer Institute in Bethesda, Maryland.

Hugh H. Clegg, '20, now assistant director of the Federal Bureau of Investigation, recently spoke at the University of Mississippi on "Crime and Internal Security."

Lt. Lawrence Rabb, '42, recently was recalled to active duty in the United States Navy and is now stationed in the district legal office, Fourth Naval District, Philadelphia, Pa. Prior to entering service he was an attorney in Lexington, Miss.

Miss Mittie Floyd Hix, '44, recently assumed new duties in Greenwood as executive director for Greenwood and LeFlore County Girl Scouts Association. She formerly was field director for the Jackson Girl Scout Council.

W. C. Mabry, '26, is district information director with the District Office of Price Stabilization in Jackson.

Trustees Decide To Keep Sports At Mid-Term Meet

The Millsaps College Board of Trustees voted early this year to continue participation in all inter-collegiate sports as long as the college has enough qualified athletes to field teams.

The action was taken at the regular mid-term meeting of the board, President M. L. Smith said today.

"Many of our players will be going into the armed forces, but those left deserve the chance to take part in sports since it is an important part of the Millsaps curriculum. As such, we are determined to keep varsity sports as long as we possibly can," he said.

Love of Game

"The college has found that increasing numbers of young men want to play for the love of the game and many have been drawn to Millsaps because we have such a program," Dr. Smith said. "We at Millsaps feel that in our program of purely amateur sports, the true place of athletics in a scholastic system is reached."

Jim Livesay, '41, who preceded Pigott as president of Jackson Jaycees, recently was selected for alumni membership in the Millsaps chapter of Omicron Delta Kappa, national honorary leadership society. He was Jackson's "Outstanding Young Man of 1950," and last fall was given the key to the Millsaps campus on Homecoming Day as the outstanding alumnus of the year.

Fred Bledsoe, '40, has been appointed manager of the Jackson office of Southern Bell Telephone Co.

in Mississippi were given to any one college, that college would not have a \$5,000,000 endowment. The fine young people of New England deserve these colleges, and we are glad they have them. The young people of Mississippi also deserve and should have the best. Let us give them the best.

If Millsaps College had an endowment of \$5,000,000, the income from the amount would be \$200,000. We would then be able to carry out the purpose of Major Millsaps, who wanted to build a college where as good an education could be had as in any state in the Union and where the cost would be within the reach of all those who could profit from it.

Another thing I want to assure you of: Millsaps College is worth sacrificing for. I mean by that, it is worth doing without a new car for, or a new television set. The youth of Mississippi attend Millsaps, and the youth of Mississippi, so bright and unspoiled, deserve the best.

In order for us to reach the first stage of our goal of \$5,000,000, let me suggest that 1,000 alumni and friends of Millsaps, even at great personal sacrifice, plan to give \$1000 each between now and January 31, 1952. This will be one of the first and best ways of guaranteeing that democracy, our form of government, will never perish from the earth.

Representative Grads Add Luster To Millsaps Name

This is a story about six prominent men.

Their professions are, for the most part, unrelated. They include the assistant director of the Federal Bureau of Investigation, an associate justice of the Mississippi Supreme Court, two distinguished university professors, a prominent Jackson businessman, and one of the nation's leading engineers.

But they do have one thing in common; they are all graduates of Millsaps College. They are six among many, but they give a representative picture of the type graduate produced by Millsaps.

Hugh Clegg

Hugh H. Clegg, Millsaps '20, has been assistant director of the F.B.I. since 1934. A native of Mathiston, his life is an open book in a very literal sense. He is listed in Who's Who in America, Who's Who in the Southeast, Who's Who in the East, Who Knows What, and the Encyclopedia of World Biography. While at Millsaps, Clegg was outstanding in debate and oratory and was a student assistant in Latin and chemistry.

Among his many honors was president of the senior class and of Kappa Alpha fraternity. Clegg has taught special subjects at American University, Yale University, the University of North Carolina, and New York University. He married the former Ruby Fields of Anguilla in 1941.

Judge Julian Alexander

Judge Julian Power Alexander was graduated from Millsaps exactly 50 years ago and since that time has served Mississippi as Assistant U. S. District Attorney, District Attorney, Judge of the Seventh District Circuit Court, and Associate Justice of the State Supreme Court. He helped frame the council city government plan for the state.

Judge Alexander's most recent work is "Code Chapter on Oil and Gas Conservation." A member of Kappa Sigma and Phi Delta Phi, he lives at 1616 Poplar Blvd., Jackson, with his three children, Seta Wharton, Julian, and Clay Roberts.

Wharton Green

Wharton Green, Millsaps '98, set state college records for both 100 yards and 440 yards during his senior year. He has broken many engineering records since. He was liaison engineer for the New York World's Fair and resident engi-

neer for the Lincoln Tunnel. He designed the new Idlewild Airport in New York, six times larger than LaGuardia Field and the largest in the world.

His firm erected the U. S. Embassy in Tokyo, office buildings in New York, Studebaker plant buildings, and New York shipyards, as well as plant installation for the Westinghouse Electric Company in the United States and England. He married a Belhaven girl, the late Clara Barton of Napoleonville, La., who died in 1946.

Dr. W. L. Kennon

Dr. William Lee Kennon, Millsaps '00, is professor of physics and astronomy at the University of Mississippi. He is the author of a standard text in astronomy, published by Ginn and Company of Boston in 1948, a standard physics text, and numerous scientific papers and addresses. After the James Observatory was constructed at Millsaps in 1900, Dr. Kennon mounted and adjusted the telescope under supervision of Dr. James A. Moore, professor of astronomy.

Dr. Paul Ramsey

Dr. Paul Ramsey, now a member of the Religion faculty at Princeton University, was graduated from Millsaps in 1935 "with high honors." He won many other honors, including presidency of the Student Body. He was a member of Pi Kappa Alpha fraternity. He taught two years at Millsaps after graduation and during that time coached the debate team to the southeastern championship. He is listed in Who's Who in the East, and is a member of the American Philosophical Association and the American Theological Society.

Boyd Campbell

Boyd Campbell, Millsaps '10, is a truly distinguished Mississippian. His business activities include presidency of the Office Supply Company, the Mississippi School Supply Company, and the School Book Supply Company. He is director of the G. M. & O. Railroad, the Mississippi Power and Light Company, the First National Bank of Jackson, and the Chamber of Commerce of the United States.

At Millsaps, he was editor of the Purple and White, weekly newspaper, and business manager of the Bobashela, school annual. He was a member of Kappa Alpha fraternity.

Kennon Hunted Rabbits On Later Site of College

"I was here at the beginning," Dr. William L. Kennon told a Millsaps College Founders Day crowd of more than 800 on February 22, in the Christian Center auditorium.

The speaker said he once hunted rabbits on what is now the site of Millsaps College. "On one of these rabbit hunts we ran upon a group of laborers preparing the foundations for a building. We wondered why it was to be located so far from town—Fortification Street was then the northern boundary of the city of Jackson. We learned that it was to be a college—Millsaps College," he related. Millsaps was founded in 1892.

Graduated 1900

Now the head of the department of physics and astronomy at the University of Mississippi, Dr. Kennon graduated from Millsaps in 1900. He attended the college preparatory school, spent four years as an undergraduate, and one as a graduate student. While a graduate student, he installed the telescope in the James Observatory. It is still being used today.

"The names of three men stand out among the many who served Millsaps," Dr. Kennon said. "These are Reuben Webster Millsaps, Charles Betts Galloway, and William Belton Murrah. As a mere boy I came to know these great personalities."

Sketched Lives

Dr. Kennon gave a brief sketch of his impressions of each of these three men. He said Major Millsaps was a "rather austere man," who was, "in the highest sense, one of Mississippi's great pioneers." He told of working for Major Millsaps collecting rent in West Jackson on Saturday afternoons.

Bishop Galloway was "an orator

who had no equal," according to the speaker. "His oration on Jefferson Davis, delivered in the old chapel of the University of Mississippi, his alma mater, was in the opinion of this speaker one of the greatest orations ever delivered in our country. And I am not overlooking the addresses of Washington, Lincoln, Daniel Webster, Patrick Henry, and others."

"I have seen Bishop Galloway fight fiercely to halt the sale of liquor and enforce prohibition. I am convinced that he, more than any other person, was responsible for the addition of the eighteenth amendment to the constitution of the United States."

Murrah was Strict

Dr. Kennon said that Dr. Murrah was a strict disciplinarian. "He did not tolerate any students loafing around the corridors between classes. We were expected to spend our off-time in the library and in the study hall."

"He made it clear in the beginning that he would not compromise or sacrifice any of the high standards of the college to gain numbers of students. He never departed from that policy. Millsaps owes much to the wisdom and firmness of its first president, Dr. Murrah," he said.

By Its Product

"The success of the college must be judged by its product, the thousands of men and women—the alumni—that have passed through its halls to serve mankind in church, state, and nation. This imposes a daily responsibility if the record of the past is to be sustained."

"Millsaps is what it is today, because it was what it was yesterday," he concluded.

AT FOUNDERS DAY

Dignitaries at Millsaps Founders Day in February are shown on the stage of the Christian Center auditorium following the program. They are: Dr. A. P. Hamilton, Founders Day chairman; Morris Chambers of Shreveport, La., 1900; Emeritus Professor G. L. Harrell, 1899; Dr. William L. Kennon of the University of Mississippi, 1900, the Founders Day speaker; and President Marion L. Smith. (Photo by Ralph Hutto).

Henry Collins Explores North of Artic Circle

By Ralph Hutto

"I have just returned from an expedition to Cornwallis Island," about 100 miles north of the magnetic North Pole."

Dr. Henry B. Collins, Jr., Smithsonian Institute anthropologist and a graduate of Millsaps College in 1922, was telling of the latest of his many artic expeditions.

"Cornwallis and others nearby are uninhabited and no Eskimos have lived that far north in historic times. However, there are numerous old Eskimo ruins, made of stone, whale bones, and turf, and excavation has provided some valuable information on the past movements and history of these people."

New Mexico Training

An assistant in the Mississippi Department of Archives and History in 1923, Dr. Collins excavated Indian mounds and other sites in Mississippi, Louisiana, and Florida, after three seasons of field training in New Mexico as a member of the National Geographic Society's Pueblo Bonito Expedition. In 1924 he began work with the U. S. Natural Museum. He had risen to associate curator in 1938 when he joined Smithsonian.

Since joining the Institute in 1938, Dr. Collins, who specializes in the archeology of the Eskimo, has made trips to the Aleutian Is-

lands, the Bering Sea and Artic coast of Canada, St. Lawrence and Little Diomede Islands in Bering Strait, and at Frobisher Bay on Baffin Island.

At Cornwallis

The Frobisher and Cornwallis expeditions were to make the first archeological excavations in the northern part of the Canadian Arctic Archipelago, a region almost inaccessible until the establishment of several weather stations and air transport in 1947. At the invitation of the Canadian government he worked in 1948 at Frobisher and in 1949 and 1950 at Cornwallis.

Dr. Collins has written four books on the Artic and Eskimos. One of these, describing excavations on St. Lawrence Island, Alaska, was awarded the gold medal of the Royal Academy of Sciences of Denmark. He is one of the founders of the Arctic Institute of North America.

While at Millsaps, Dr. Collins was captain of the track team and a student assistant in English. He was the only member of Pi Kappa Alpha fraternity in the graduating class of 1922. He has an A. M. from George Washington University and an honorary Doctor of Science from Millsaps in 1940.

A native of Geneva, Ala., he was brought up in Louisiana.

Pack Up And Get Ready; Class Reunion Is June 4

June 4 is the day!

All classes from years ending in one and six, from 1901 to 1946, are expected at the M Bench south of Murrah Hall at 3 p. m. There will be a tent pitched in case of rain. If you aren't a one or sixer, don't let that stop you. You will be more than welcome.

Alumni will assemble in the Christian Center auditorium at 4 p. m., but don't worry. There will be no speeches and elections will be over so quick you'll never know it, so have your nominations ready.

At 5 p. m. we return to the M Bench for the alumni supper. No charge, of course.

Now don't forget. Put this paper on the mantle piece to remind you. Be here when that big crowd arrives.

Here are the classes: 1901, 1906, 1911, 1916, 1921, 1926, 1931, 1936, 1941, 1946.

A final explicit word:

COME TO THE CLASS REUNIONS!

Navy Captain J. H. Brooks, '09, recently retired as senior chaplain of the Pensacola Naval Air Station after 30 years service.

Joe H. Brooks, IV, '41, son of Captain Brooks, is now in the newspaper business with the Sun-Telegram of San Bernardino, Calif.

Keith Pigott, '47, is now serving as president of the Jackson Junior Chamber of Commerce. He recently was promoted to the position of assistant vice-president of Commercial Bank and Trust Co.

Magazine Selects Millsaps For Third Consecutive Year

For the third straight year, Millsaps College has been recommended by the Good Housekeeping Magazine annual report on small colleges.

The latest report is published in the February issue of the magazine. Millsaps is the only Mississippi school included in the list of 125 "earnestly recommended" colleges, and its yearly cost of \$630 is lower than any of the colleges listed.

The Good Housekeeping list is limited to independent colleges of less than 1500 enrollment, whose yearly costs do not exceed \$1200. The list was approved by an Advisory Board consisting of three distinguished educators from various sections of the United States.

Colleges from adjoining states on the list are: Centenary of Shreveport, Southwestern of Memphis, the University of Chattanooga, Birmingham Southern, and Howard of Birmingham.
